Public Segment

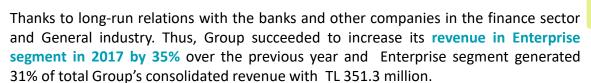

Even though the government increased its **public sector** spending in the second half of 2017 as a reflection of the economic recovery, some projects in the public safety area and the public sector could not be realized at the desired terms and had to be postponed to 2018. Consequently, Group's total order booking in public segment reported as TL 307.9 million at year-end 2017 with a contraction by 17.8% 1 y-o-y.

The contraction in order booking performance was partly offset by the expansion in **government projects** in 2017. In addition to the ongoing TFF projects, new projects for Ministry of Education (Güvenli Okul Projesi (Safe School Project)), Ministry of Transport, Maritime Affairs and Communications Transportation (Seeing Eye), Turksat-KKTC e-government projects (e-Gümrük, e-Tüzel) and infrastructure and networking installation for the City Hospitals contributed positively to the order booking performance.

In 2017, Revenues from **public safety projects** increased by almost 50% mainly due to the strong backlogs during the year. While the revenues from the telecom sector remained flat. Unfortunatelly, the revenues from **government projects** recorded in 2017 was lower than its level in 2016 due to the strong base of 2016 stemming mainly from Fatih Project. Consequently, public segment's total revenue declined by 24% in 2017 vs 2016.

Enterprise Segment

Consolidated order booking performance of Enterprise segment increased by 77% in 2017 and reached TL 335.1 million thanks to sizeable projects in General Industry and on-going service projects in Finance Sector.

IGA Project signed in the first quarter of 2017 in addition to recurring service businesses in **General Industry** positively contributed to the Group's consolidated order booking performance in 2017. Group had a tremendous order booking performance by 113% in General Industry in 2017 over the previous year through strong customer relations and thanks to the enlarging playing field. While sales revenue in General Industry increased by 31% in 2017.

In 2017, Finance Sector continued to keep its strong seat with a 32% growth year on year in terms of order booking performance in Enterprise segment and revenue grew by 43%. Field maintenance projects, POS maintenance projects, application supports, software tests services etc. in Finance sector constituted large portion of Group's total finance sector revenues in FY2017.

International Segment

Group's orders booked was limited at TL 77.3 million as of end of 2017 mainly due to gradually falling oil prices reflected as a decline in government spending of the Asian and North African countries in 2017 besides the strong base of 2016. With its diversified business structure, Group managed to diminish the negative impact of this economic downturn in its flagship market of Algeria in 2017.

Despite its lower order booking performance in 2017 compared to the previous year, International markets recorded a strong revenue growth in 2017 mainly due to the strong backlog arising from the Sonatrach project, ATM Mobilis Project signed in 2016 and recently booked second phase of Algerian Ministry of Defense's Project. Consequently Group's revenues from International grew by 271% over the previous year and reached to TL 252.8 million with a gross profit margin of 22.1%.

Technology Segment

Group's order and revenue performance in Technology segment was relatively stable in 2017 and Group recorded TL 68 million revenue and TL 1.8 million gross margin in 2017 thanks to long-continued strong relations with Ribbon (Genband), the largest R&D customer of Netas, is a company that offers intelligent network solutions in more than 80 countries for service providers and major corporations. Operating profit of Technology segment turned to negative as a result of R&D spending in cyber security and other R&D areas amounting to approximately TL 4.3 million in 2017.

BDH

BDH's orders-booked increased by 35% in 2017 compared the same period of the year. Furthermore, as a result of continuous efficiency improvement, BDH's revenue increased by 26% y-o-y for the same period.

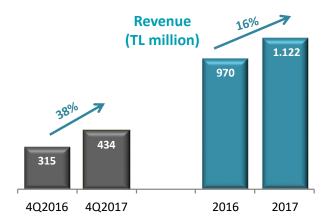

CONSOLIDATED FINANCIAL PERFORMANCE

CONSOLIDATED FINANCIAL PERFORMANCE

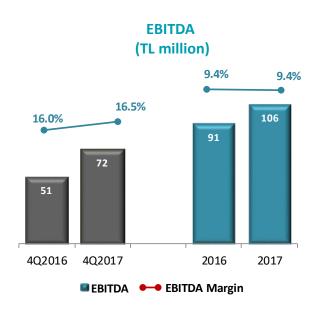

• Group's consolidated order booking performance was almost flat in 2017 resulting from the postponed public projects to 2018 in domestic market and challenging market conditions in international markets. However, the contraction in public and international segments were offset by the order expansion in Enterprise segment.

- Despite of another challenging year of 2017 as a result of ongoing geopolitical uncertainties in domestic and international markets, Group delivered a successful growth and consolidated sales revenue was up by 15.7% y-o-y and increased to TL 1.1 billion inline with the Company's guidance for 2017. Strong backlog in International market was the primary reason for Group's solid consolidated revenue growth in 2017 while accelerated growth in Enterprise segment in also positively contributed.
- Consolidated gross profit of the Group increased from TL 134.4 million in 2016 to TL 172.5 million in 2017 increasing by 28.4% y-o-y a head of revenue growth, escalating its gross profit margin to 15.4% in 2017 from 13.9% in 2016 with an increase of 151bps year on year. Thanks to increased operational efficiencies coming from Enterprise segment and International markets.
- Consolidated operating expenses (OPEX) increased to TL 92.8 million in 2017 from the amount of TL 68.8 million in 2016 mainly due to rising USD based operating expenses in domestic market. While, operating expenses as a percentage of net sales was almost flat in 2017.
- In contrast with the presumable increase in OPEX due to higher FX rates, lower other
 expenses from operating activities resulted in a favorable operating profit in 2017
 amounting to TL 64.5 million.

CONSOLIDATED FINANCIAL PERFORMANCE

- Group's consolidated Earnings Before Interest, Taxes, Depreciation, and Amortization (EBITDA) was realized as TL 106 million in 2017 with an increase of 16% y-o-y while EBITDA margin remained flat at 9.4%.
- Despite a lower financial income in 2017, bottom-line, recorded in 2017, was significantly higher than its level in 2016. Excluding the effect of provisions reflected to 2016 financial results for the doubtful receivables from Nortel Networks amounting to TL 21.7 million, Group was able to improve its bottom-line to TL 53.5 million in 2017 from 18.7 million in 2016.

DEBT STRUCTURE & NET WORKING CAPITAL

- Group's cash and cash equivalents was TL 187 million for the year-ended 2017 with a net debt positioning of TL139 million.
- Gross financial debt was TL 326 million in 2017 and approximately 71% of debt in TL and 29% held in USD.
- Maturities of more than 90% of total financial debts are less than one year.
