OPERATIONAL PERFORMANCE

Orders & Revenue

Orders booked in the first quarter of 2017 was TL 167.3 million (USD 45 million) and **orders on hand** were TL 760.5 million (USD 209.0 million). Despite the increase in order booking performance of international segment and enterprise segment by 79.7% and 49.0% respectively, which softened the decline in public segment to a large extent, total order booking performance decreased by 16% y-o-y basis in terms of TL.

Consolidated revenue was TL167.9 million in the 1Q2017. In general manner, the first quarter is always the smallest quarter in Group's yearly revenue. Group benefited from its diversified business structure in 1Q2017 despite the continued economic and political challenges in the domestic market which made up approximately 75% of total revenue. Continuing challenges in the domestic market negatively affected operating performance of the Group, especially in Public segment. However, the revenue growth in enterprise, international segments and BDH mostly compensated for the poor results in Public segment. International operations generated %26 of total revenue in the first quarter of the year (1Q2016:18%).

Public Segment

Despite the increasing share of in total public sector revenue, sharp decline in the government projects pulled down total revenue in public segment in 1Q20117.

Following the law suit against Ministry of Interior to cancel the decision concerning the ban imposed on May 31, 2016 for government tender bids for one year, the Group has filed an appeal to the Administrative Litigation Department and the appeal was resulted in favour of company and the blacklisting decision has been cancelled on March 20, 2017. Thus, the Group expects a positive impact on the order booking performance and top line growth for the rest of the year.

Enterprise Segment

Turbulent geopolitical backdrop, ongoing political uncertainty elevated the tension in domestic market. And consequently, unfavorable market conditions impaired the business confidence of companies and led to holding back business investments. Despite all, the Group succeeded to increase its order booking performance by 49.0% in the first quarter of the year thanks to contract signatures with new logos and add-on businesses with its existing clients during the period. In 1Q2017, IGA project positively contributed to the total order booking performance that was signed in February 2017 to install and operate the wired and wireless area networks of Istanbul 3rd airport, amounting to approximately 10.8 million Euro. Enterprise segment recorded a revenue growth in 1Q2017 by 4.4% compared to the same period of 2016 under the favour of the continued projects in finance sector and general industry.

OPERATIONAL PERFORMANCE

International Segment

International operations recorded a notable growth by 79.7% through the new project signed in Algeria in February 2017.

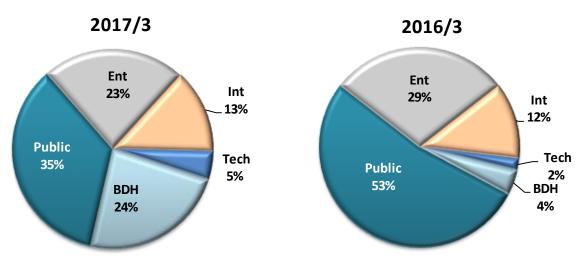

International segment also performed an excellent revenue growth by 42.9% in the first quarter of the year with the positive contribution of continued Mobilis project and recently signed Sonatrach.

Technology Segment

In the first quarter of the year, Group continued to offer value added solutions to its customers including technology consultancy with its experience and strength in R&D. Group's revenue and order booking performance were almost flat in the first quarter of the year. Revenue contribution of the technology segment was around 18 million TL in the quarter thanks to the long-running relations established with multinational companies.

BDH

As a result of the successful execution of the strategy to improve the existing business processes and to capture new opportunities in the expanding ICT market, BDH continued to increase its share in total revenue and released 32.9% revenue growth in the first quarter of the year. EBIT contribution of BDH increased to TL 4.7 million in 1Q2017 from TL 1 million in 1Q2016 due to focusing on more value added servicing business.

Contribution Breakdown

CONSOLIDATED FINANCIAL PERFORMANCE

- Consolidated sales revenue was 167.9 million TL in this challenging quarter and it was down by 17.9% year-on-year basis. Despite continued economic and political uncertainty in operating regions especially in Turkey, consolidated results are better than expected. Group benefited from its diversified business structure and the growth in Enterprise, International and BDH segments mostly compensated for the results in Public segment. International operations sales revenue increased by 17.6% in 1Q2017.
- Despite a lower consolidated revenue compared to the same period of the previous year Group managed to mitigate the decline in gross profit margin by continued focus on costs management. Consequently the gross margin was flat at 10.5% in 1Q2017 vs 11.0% in 1Q2016. As a result of its new servicing strategy, gross margin contribution of BDH increased to 4.7 million TL in the first quarter of the year compared to the amount of 1.0 million TL in 1Q2016.
- Accordingly, in the first quarter of 2017 Earnings Before Interest, Taxes, Depreciation, and Amortization (EBITDA) of the Group was TL 5.1 million compared to TL 9.4 million in 1Q2016. However EBITDA margin decline was limited to 156 bps in 1Q2017.
- Positive impact of stronger USD vs TL in the first quarter of the year resulted in TL 9.1 million consolidated financial income compared to TL 0.5 million in 1Q2016 while financial expenses were lower than the same quarter of the previous year despite the short term bank loans to fund the projects and it was recorded as TL11.7 million in 1Q2017.
- Group recorded TL 0.8 million **net profit** in the first quarter of the year compared to TL1.8 million net loss in 1Q2016.
